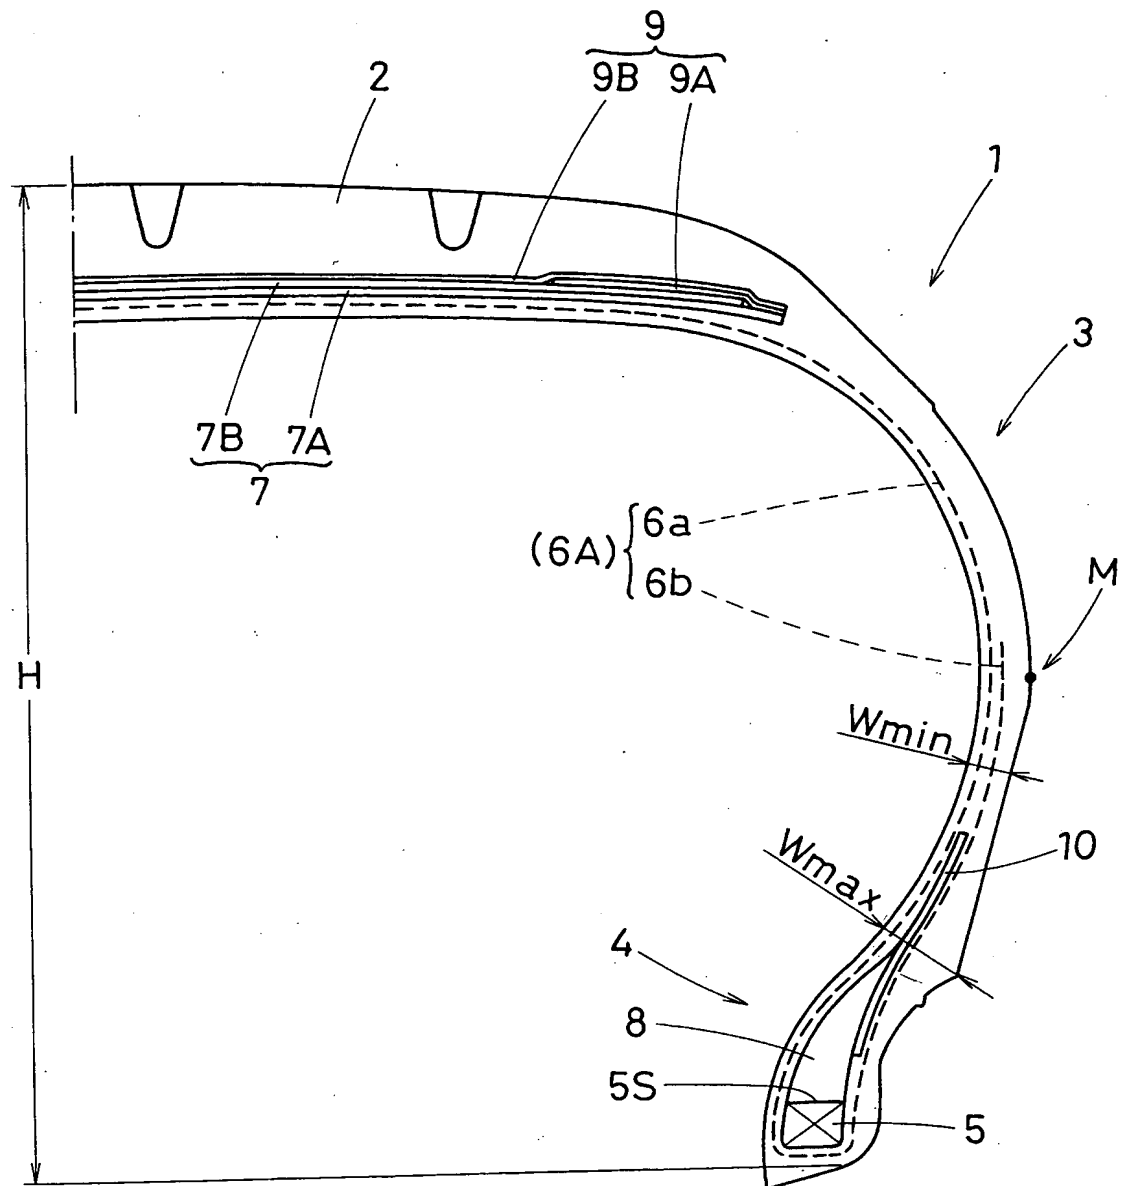

Fig.2

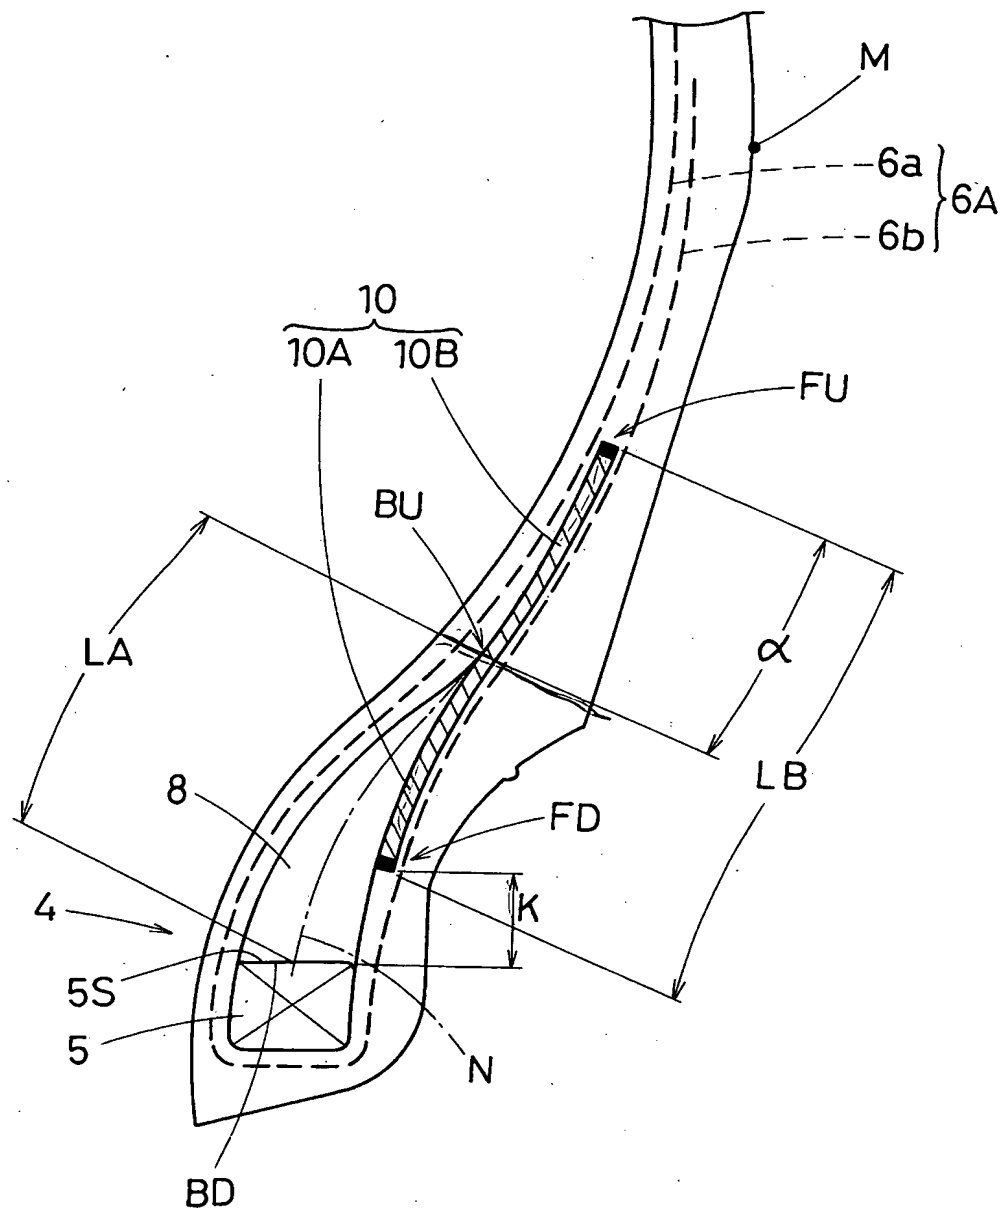

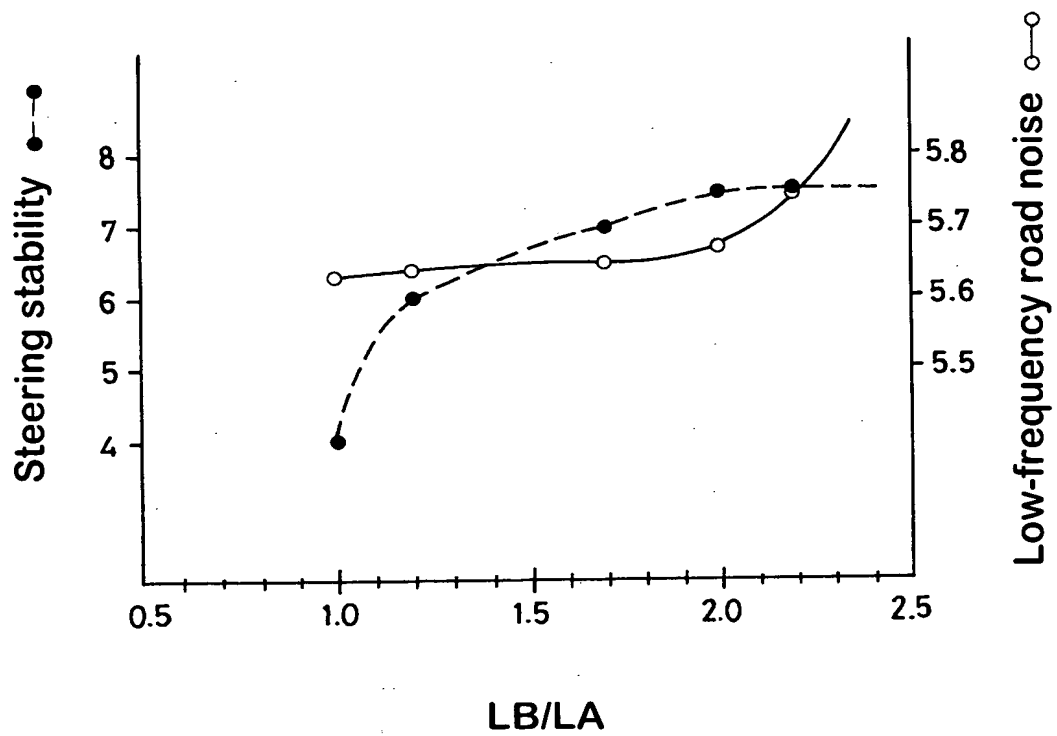

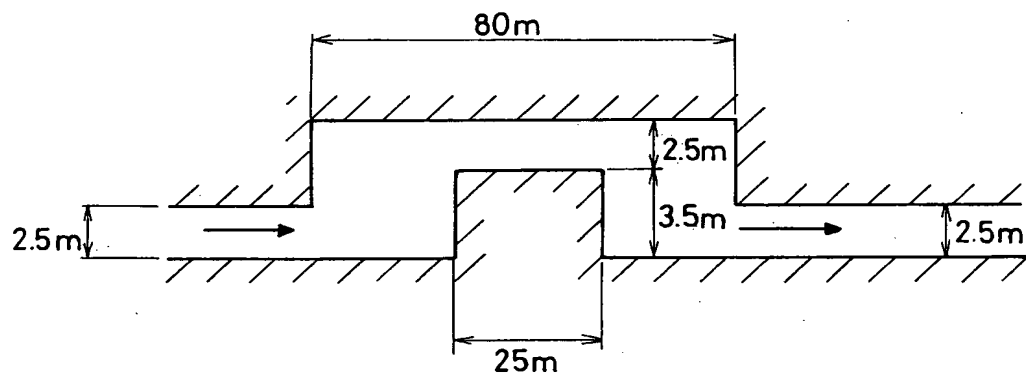

Fig.3

[illegible]

A schematic diagram of a curved, segmented structure, likely a biological specimen, showing internal layers and features labeled 'a', 'b', 'c', and 'c1'. The structure is curved and segmented, with internal layers and features labeled 'a', 'b', 'c', and 'c1'. The diagram shows a cross-section of a curved, segmented structure, possibly a biological specimen, with internal layers and features labeled 'a', 'b', 'c', and 'c1'. The structure is curved and segmented, with internal layers and features labeled 'a', 'b', 'c', and 'c1'. The diagram shows a cross-section of a curved, segmented structure, possibly a biological specimen, with internal layers and features labeled 'a', 'b', 'c', and 'c1'.
